Experiment 2: Zoho Creator Setup and Platform Exploration using Job Application Form

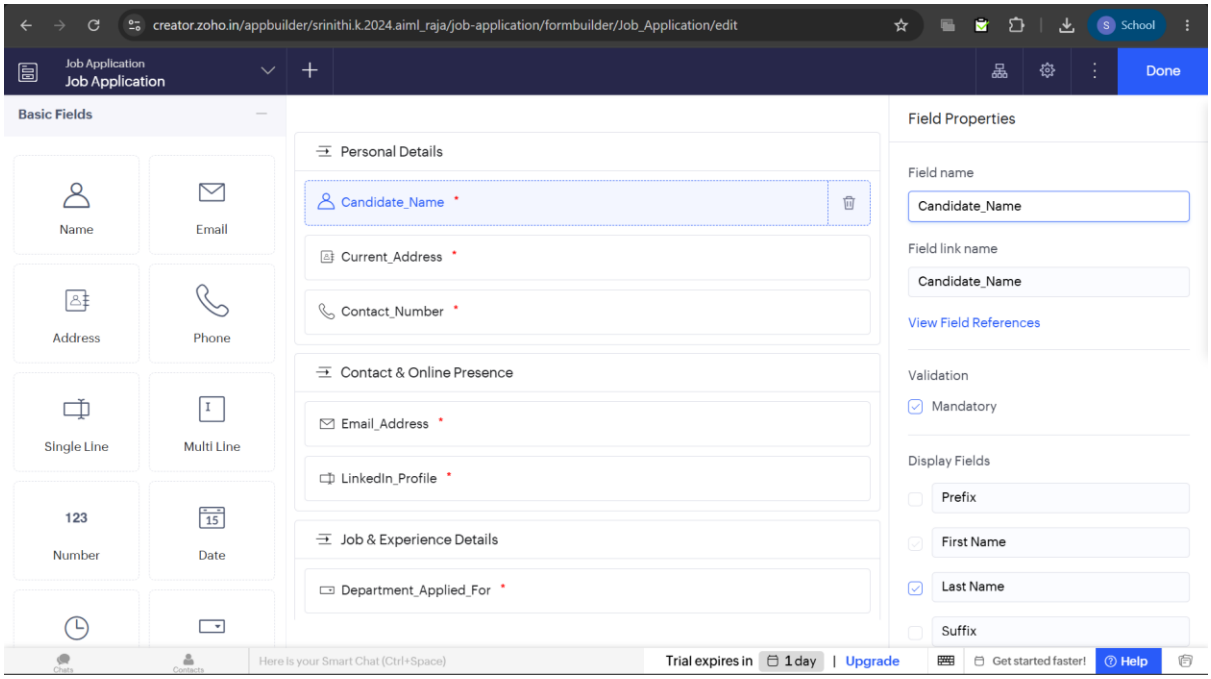

Aim

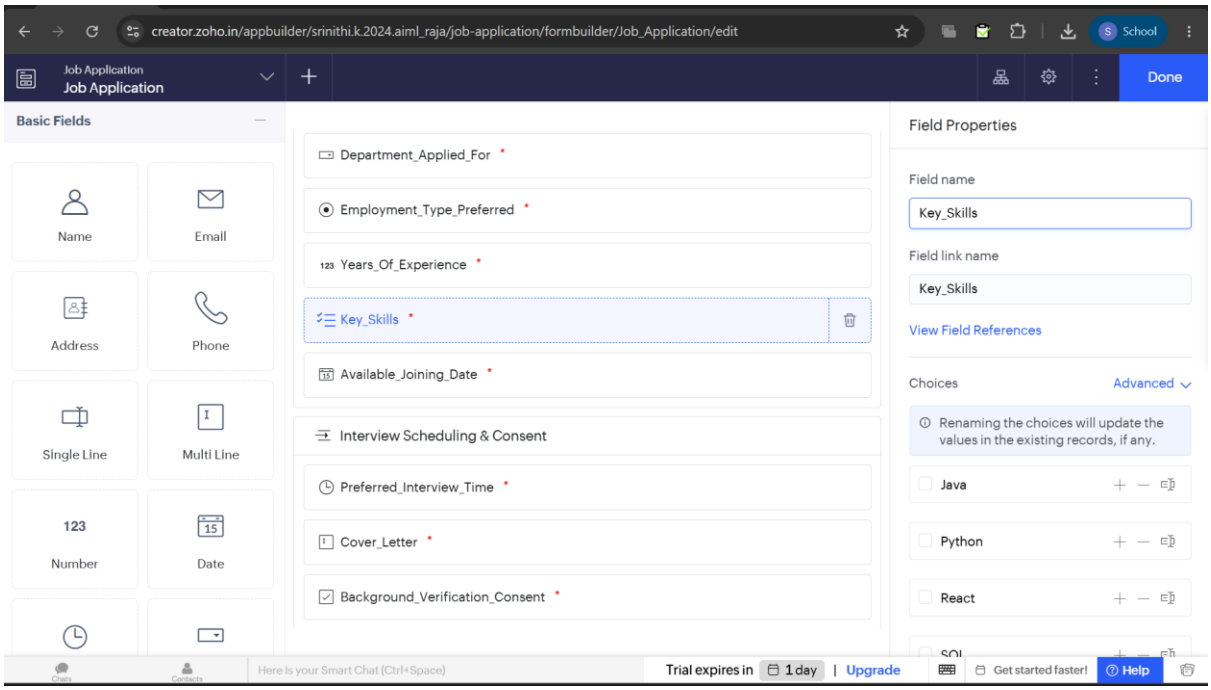

To set up and explore the Zoho Creator platform by creating a Job Application Form and understanding its basic low-code features.

SCREENSHOTS:

Observation

Zoho Creator provides an easy drag-and-drop interface to create forms, manage data, and generate reports with minimal coding.

Result

The Zoho Creator platform was successfully explored, and the **Job Application Form** was created successfully.
